

How To Apply A Small Sticker /Decal

Step 1: Clean the area thoroughly with rubbing alcohol or soap and water. Do not use Windex or similar products because it will leave a residue behind that will prevent the sticker from adhering well. Make sure your surface is dry before application. Apply above 50 degrees F for best results.

Step 2: Prepare the sticker for application by firmly rubbing a squeegee or credit card across the clear transfer tape. This removes any air bubbles that may have formed and makes the sticker cling to the transfer tape.

Step 3: Peel the white paper backing off the sticker. If the sticker clings to the backing, slowly replace the paper backing and repeat Step 2.

Step 4: Slowly lower the sticker onto the surface and rub it in place firmly with a squeegee or credit card.
